

Project Introduction

Your Project for the Week

Goal:

Build an easy-to-use online interactive dashboard to help your *company** gain insights into its data.

This week's project has many parts:

- 🐘 Databases / SQL
- ☁️ Cloud computing
- 📊 Building dashboards

Data:

- We give you the data! 🎉
- The data comes from a fictitious company, Northwind Traders, which imports and exports specialty foods from around the world. 🍷 🧀 🍷 🐌 🦀 🍷
- It consists of 11 csv files.

Your Workflow for the Week

- Create database: Monday
- Fill database with data: Monday+Tuesday

- Put database in the cloud: Wednesday
- Install dashboarding software in the cloud: Wednesday
- Build dashboard: Thursday+Friday
- Show your dashboard to the world: Friday
